

## Summer Training Series

### Best Practices for Back to School

[View the schedule](#)

This summer, forget about binge-watching reruns.

Sign up now and get a brand new webinar each and every week with this free Summer Training Series.

Starting **June 25th** at **11 am EDT**, Securly's Customer Success Engineer Will Patterson will be presenting 10 topics to get you prepped and ready for back to school.

The Summer Training Series will encompass student safety and how schools can use technology to keep kids protected at school, at home, on all devices, at all times. Imagine the possibilities! Each topic will be followed by a live Q&A.

Now, imagine if you don't sign up. Your peers will be geeking out about things you simply won't understand:

"Did you see the webinar about DNS? That ending rocked!"

"And when SmartPAC showed up, I was like no way!"

"The ChromeTools for teachers webinar? Dude, I'll say it. I cried."

So, don't worry about dodging spoilers the rest of the summer. Be part of the conversation that will take place with our free Summer Training Series.

Sign up for one or for all 10. It's up to you!
